# TRANSPARENT LABELS - RF 8.2

This clear transparent security label helps preserve branding and can be placed over barcodes so important data can still be scanned. Will work with all 8.2Mhz RF detection systems and security label deactivators.

This narrow label is perfect for products such as cosmetics and bottles.

**Security:** High
**Detection Rage:** Standard

## Benefits

Limited covering of important product information to preserve product branding

Place over product barcode.

Product codes and barcodes are still visible and scannable.
